Copy 2 of 20

20 March 1958

A G E N D A

AD HOC REQUIREMENTS COMMITTEE MEETING

To be Held Monday, 24 March 1958, at 2:30 p. m.

Room 214, Administration Building, Central Intelligence Agency

1. Requirements

a. Members are requested to bring requirements of interest in the [REDACTED] area for use in the event that operations are conducted on the basis of command decision.

b. Would the members please consider whether it is timely to establish a master list of possible requirements for [REDACTED] to permit prompt telephonic consolidation of requirements as was our practice in the [REDACTED] area.

2. [REDACTED]
(Reference: SC-01095/58, 28 Feb 58)

c. In view of the fact that the area indicated in the referenced paper involves two weather areas, we need to advise Operations on specific points of greatest importance among those listed under paragraph 4 of the referenced memorandum.

3. Security Discussion
(Reference: DRAFT C, TCS-2795-58, 3 Mar 58)

d. Attention is directed to paragraphs 2, 3, 4 and 6 of referenced paper, the subject of which is "Security Aspects of TALENT/AQUATONE". The Chair believes that agreement exists among the ARC members on these items. A draft revision of the entire security agreement (which was examined briefly at the ARC meeting of 7 March) will be available for inspection and, I hope, agreement.

e. Enclosed herewith is another paper which proposes a solution to the problems that were discussed inconclusively with regard to paragraph 5 of the above referenced memorandum. This document is entitled "TALENT/AQUATONE Security Problems". Your concurrence in this draft memorandum is invited.

4. Suggestions

25X1X7

b. The point of discussion of this paper is to discern whether from the paper we can obtain any ideas which we would find highly beneficial in our own analysis and presentation of requirements in these three fields, i.e., ELINT, COMINT, and photography.
